

# DROLL YANKEES®

The World's Best Bird Feeders®

## Observer Window Feeder (OWF)

**Cleaning:** Please for the sake of the birds, keep your feeders clean! Dirty feeders can harm the birds. Use a mild soap and water solution and a soft bristle brush for thorough and simple cleaning. Dry completely before filling with seed, fruit or meal worms.

### Disassemble

1. Remove the feeder by gently lifting the edge of both suction cups on the dish with your fingertips while holding the base. Lift the feeder gently upward off of the suction cup which was holding the top.
2. Remove the single suction cup by gently lifting the edge.
3. The top cannot be removed from the dish for cleaning on this model.

### Assemble

1. Before placing the suction cups on a clean, dry window, rub a little oil from the side of your nose onto the suction cups before positioning onto the window.
2. Position and press the single suction cup which attaches to the top against window at desired height.
3. Position and gently hook the top by using the notch on the backside of the top onto the single suction cup while still holding base slightly away from the window. Press the base horizontally against window making certain that it is level.
