

Squirrel Slinky O Ring Installation Instructions

FOR USE ON A 1" DIAMETER POLE

1. Work the O ring over the top of the pole.
2. Slide the O ring down the pole approximately 8 inches.
3. Slide the Squirrel Slinky over the top of the pole, notched end first. (The notched end is the end that captures the spring. Place this end over the pole so that it is toward the bottom of the pole.)
4. Pull the Squirrel Slinky down the pole and over the O ring until the spring is exposed.
5. Work the end of the spring over the pole in a counter-clockwise direction until the end is totally around the pole.
6. Slip the spring end down the pole until it meets the O ring.
7. When the Squirrel Slinky is released, the top end will be approximately 6 inches below the top of the pole.
